## CAMPAIGN IN HEAT.

President Going for Coal and Oil.

Atty.-Gen. Moody, Reports Say, Will Resign to Prosecute Trusts.

Chief Executive Plans Most Vigorous Investigation of the Big Combines.

Interstate Commerce Commission's Date Useful in Proposed Actions.

**WASHINGTON, Feb. 28.**—[Exclusive Dispatch.] A report is current here tonight that Atty.-Gen. Moody will resign from the Cabinet and will be appointed special counsel to push a sweeping campaign which the President will direct against the coal and oil carrying railroads and the trusts whom evidence shows to have violated the law. Mr. Moody, it is said, will devote his whole time to investigations and prosecutions under the Sherman act.

While the plans of the Chief Executive for a vigorous investigation and war upon law-breaking trusts have not been completed, the matter has been under serious consideration, and the President welcomes the Interstate Commerce Commission's investigation as an effective agency in determining whether the Anti-Trust and Interstate Commerce Acts are being violated. It is known that the President has been restive under the criticism that the beef trust had been prosecuted, while the Pennsylvania Railroad and the Pullman Company have been allowed to go on without molestation. He has answered this criticism by declaring that he would order the Attorney-General to bring suit at once against the railroad when evidence was produced that seemed as conclusive as that upon which the suits against the beef trust were based.

**TACKLING THE BIGGEST.** The investigation of the Interstate Commerce Commission is expected not only to furnish information on which new legislation can be undertaken, but it is believed it will furnish testimony that will warrant the President in directing the Attorney-General to bring suit against some of the biggest railroads in the country.

The President, it can be positively stated, has had in mind for some time the prosecution of the Standard Oil monopoly if reasonable evidence could be produced on which the Department of Justice could base suits. The investigation which the Interstate Commerce Commission is about to inaugurate is looked to by the Chief Executive as a means for securing the truth regarding the operations of the big railroad corporations and the Standard Oil Company.

**SALARY FOR MOODY.** Another report circulated today was to the effect that the Interstate Commerce Commission, in its investigation, which is to begin March 12, would employ Mr. Moody at a \$25,000-a-year salary. Inquiry of the commission developed the fact that an effort will be made to secure a good lawyer to assist in the investigation, one of high standing and ability, but there was no thought of paying such a salary as \$25,000 a year.

**MRS. FINSTAD'S PLEADING.** EL PASO (Tex.) Feb. 28.—[Exclusive Dispatch.] Mrs. O. E. Finstad, wife of the late O. E. Finstad, an associate of the late John H. Finstad, who was killed in the explosion at Santa Rosa, is still under arrest at Santa Rosa.

**LARIE COPPER COMBINATION.** BOSTON (Mass.) Feb. 28.—[Exclusive Dispatch.] Thomas F. Cole is working on a large combination in copper mines at Globe, Ariz., including Boston and other mines which will form the Larie Copper Company, organized with \$500,000 capital to take over the Larie mines in California, is heavily subscribed, and all elements have been set down, the bigger company combining with several other companies.

O. Orloff.

**NEW YORK, Feb. 28.**—[Exclusive Dispatch.] At the offices of Walrad & Blaney, attorneys for the United Steamship Company, incorporated at Trenton Tuesday with a capital of \$1,000,000, it was said today that the company will establish an oil-tank ship service in connection with the Union Oil Company of San Francisco.

Two vessels, the Minnetonka and the Minnewaska, built in Cleveland, formerly in service on the Great Lakes, and which were brought through the Erie Canal in sections some time ago, are to form the beginning of the company's fleet. The vessels, now at Newport News, will be used in the trade between San Francisco and the Sandwich Islands.

## MODERN PORTIA HAS CROSS-BILL.

MRS. EAMES REPLIES TO HER HUSBAND'S CHARGES.

**CHICAGO, Feb. 28.**—[Exclusive Dispatch.] Former Mayor J. N. Scatchard of Buffalo, N. Y., who was also at the head of the board of managers of the Pan-American Exposition and who is a millionaire, was brought into the divorce suit of John H. Eames against Mrs. Henrietta Eames, the "Modern Portia," in a sensational light today, when she filed her cross bill asking that Eames be made the defendant.

Besides Scatchard, there are also brought into the case several housemaids of Mrs. Eames on Michigan avenue, and Eames is also accused of having passed the first seven days of his honeymoon in orgies at the Everleigh Club while his bride waited for him at the Ontario Hotel.

**MET A "FAIRY."** Mrs. Eames alleges that her husband finally "made a date" with her by telephone, but did not appear until the next day, when he coolly informed her "that he had met a swell 'fairy,'" and that the honeymoon had "slipped his mind."

Eames is wealthy, and both he and Mrs. Eames have been prominent in South Side society. Mrs. Eames so far has conducted her own defense in her own way.

**HOW SCATCHARD GOT IN.** In the month of April, 1905, he alleged, J. N. Scatchard of Buffalo, N. Y., called at his residence, and she invited him into the house and let him stay in the den of the said John H. Eames, and was found there by the said John H. Eames when he returned home, and that she was complimented for her hospitality.

In the bill filed by Eames, allusion is made to the return of Eames to his home to find that a man was there, it is in explanation of the charges that the prominent Buffalo millionaire and politician was brought into the case.

## "REDS" THREATEN THE DOWAGER.

QUEEN MARGHERITA ABANDONS HER AMERICAN TOUR.

**Fine Automobile Had Been Ordered for Her, but the Italian Authorities Receive Warning of a Plot Hatched in Paterson, N. J., to Do Away With Her.**

**WASHINGTON, Feb. 28.**—[Exclusive Dispatch.] While it was impossible to obtain confirmation, tonight, at the Italian Embassy, it is reported here that the sudden change in the plan for a tour by the Dowager Queen of Italy in the United States is due to the disclosure of a plot to kill Her Majesty, conceived by the anarchist group, whose headquarters are at Paterson, N. J., in that city was arranged the successful conspiracy to assassinate King Humbert, of which Bresci was the instrument.

It is said here that the Italian Consul-General in New York and the embassy here were warned that there was a plot for the Queen in the projected American automobile tour. An investigation, it is announced, disclosed the fact that there was sufficient basis to justify the authorities in cancelling the government at Rome that the trip would be dangerous.

## RIOTING IN HONAN; NATIVES KILLED.

Anti-Catholic Rising is Extending Despite Official Efforts.

Priests Refuse to Admit They Are Wrong When Urged by Authorities Not to Use Court Characters. Ammunition for Peking Police—Washington Takes Cognizance of Danger to Americans.

**LONDON, Feb. 28.**—[Exclusive Dispatch.] The foreign office today interrogated the Chinese legation, where it was explained that the recent massacre broke out through French Catholic converts first murdering native Chinese.

French contemplates no diplomatic move, but has sent a Consul and the gunboat Snipe to the scene of action. Interviewed by a correspondent, Liu Shih-shen, the Chinese Minister to Paris, declared there was no general sentiment of hostility against foreigners in China at present, but merely an awakening of the national spirit.

"Our army," he continued, "is being reorganized to protect ourselves and keep order on our boundaries. The government's desire for knowledge is proved by the numbers of Chinese students sent abroad. There are nearly one thousand in America and Europe, and many more in Japan, and all will find employment in the public service on returning home."

**PEKING, Feb. 28.**—Riots have taken place in the southern part of the province of Honan. Several native Christians have been killed, but no foreigners have been injured. The riots are the result of an anti-Catholic rising.

The massacre of Roman Catholic priests at Nanchang was the result of priests' action in issuing appeal for subscriptions to their church in form and characters used for official documents, but when the authorities protested, the priests refused to acknowledge they had done anything wrong.

Ammunition has been issued to the police of Peking who were recently armed with rifles in addition to clubs. The government suspects the instigators of the recent bomb outrage of endeavoring to implicate China with the foreign powers with the object of overthrowing the dynasty.

**SURVIVORS REACH KIUKIANG.** SHANGHAI, Feb. 28.—[Exclusive Dispatch.] Thirty-three survivors of the massacre at Nanchang have arrived at Kiukiang. The French cruiser Descartes and the United States gunboat Quila have gone to Kiukiang, where the British ship Clor and the gunboat Teal directly are.

## WASHINGTON CHIEFS ARE FULLY PREPARED.

For Three Months, Says State Department, Movements Have Been Going on to Give Fullest Possible Protection to Americans.

**WASHINGTON, Feb. 28.**—[Exclusive Dispatch.] The following summary of the administration's attitude toward the trouble in China was given from the State Department tonight:

"For fully three months the administration has been making preparations calculated to place it in position to give the fullest possible protection to American citizens and American property interests in China. It entered on these preparations as a result of advice reaching it from its agents, consular and diplomatic, in the empire, giving warning of the dangers of an anti-foreign outbreak as a consequence of the boycott of American goods. This boycott served to revive the general anti-foreign feeling which characterized the Boxer excitement of 1900.

## DEFYING MILITIA.

Springfield Mob is Again Rampant.

Entire Block of Tenement Houses Destroyed and Negroes Homeless.

Homes of Rev. Curry and Others Stoned and Guns Freely Used.

Several People Are Injured. Troops Use Bayonets Pursuing Rioters.

**SPRINGFIELD (O.) Feb. 28.**—[Exclusive Dispatch.] The presence of five companies of militia patrolling the city appears to have cowed for a time the mob which has had Springfield by the throat. Just as dawn was breaking this morning two companies of soldiers from Dayton and one from Urbana were landed here by special train to reinforce their seventy Springfield comrades. The latter were ready to drop from exhaustion when help arrived.

At that time, the mob's turbulence showed no signs of abatement, but at the sight of the "long thin line of blue" marching firmly toward it with fixed bayonets, the crowd saw that the game was up and sullenly began to disperse. But there are reports about that the mob is only taking a breathing spell and will soon reassemble to continue its work of driving the negroes out of Springfield. Gov. Patton believes the contingency serious enough to warrant holding under arms the militia of Columbus, and these will be immediately thrown into Springfield should rioting begin again.

**DESTROYED A BLOCK.** The mob destroyed an entire block of cheap tenement houses inhabited by the negroes, and whenever criticism may be passed on its conduct it has removed one of the plague spots of Springfield, though thirty-five negro families have been rendered homeless.

**GERMAN DROPS DEAD.** Conrad Volmer, an aged German, who lived near the negro quarter, dropped dead from excitement while the mob was doing his work.

The dilatoriness of the Springfield militia in assembling at the Mayor's call may result in a court-martial. The order was given at 9 o'clock, and not until 12:15 o'clock did the two companies meet at their armory and go on duty. Even then only forty-five out of the full strength of the two companies turned out. Many of these did not appear at the armory until midnight.

When questioned regarding the lateness of arriving they said they "were tired to see the fun," and waited until after it was over before reporting. When they did assemble, the mob was beyond control.

**INCENDIARISM RENEWED.** [BY THE ASSOCIATED PRESS.—P.M.] **SPRINGFIELD (O.) Feb. 28.**—Though eight companies of State troops are on guard in this city, more incendiary fires were started early again, tonight, in various parts of the city. In every instance the houses were occupied by negroes, or negroes and whites. A negro house at Harrison and York streets was stoned by a large crowd, but the occupants are believed to have escaped.

The "Flick" net, which is inhabited by negroes and which figured in the Dixon mob and subsequent race war two years ago, has been assaulted tonight, and several attempts made to fire it, but it is guarded by militia. Several alarms have been turned in as a result of fires, but no general alarm, as every available fireman is at work on the fires now under way.

**PREACHER'S HOUSE STONED.** The house of Rev. John C. Curry, a negro preacher, was stoned, and the family fled, terror-stricken, from it. The mob then set fire to it, but the prompt arrival of the military prevented its destruction.

The homes of Reuben Campbell and Charles Fillmore on Central avenue were stoned with stones, and at this point a boy, whose name is not known, was shot in the leg.

The militia have devoted their attention to control of the larger crowds, leaving the police to look after the smaller end of the riot.

**MUCH SHOOTING.** Promiscuous and random shooting has been a feature tonight, and has added to the general terror. Two negro women who jumped from the second story of their home when assailed by the mobs were seriously hurt, and were taken to a hospital.

## WANTS DAUGHTER AND NOT WIFE.

Whitlaw Extending Search to Los Angeles.

Sidney J. Smith, Who Was Sentenced to a Year's Imprisonment on Statutory Charge, is Supposed to Have Brought the Two Women Westward.

**LOS ANGELES, Feb. 28.**—[Exclusive Dispatch.] John Whitlaw, a Coburn Ont. millionaire, personally has given out the search for his daughter, who left his home to join her mother, Mrs. Jeannette Whitlaw, in this city, and then disappeared with the latter and Mrs. Whitlaw's friend, Sidney J. Smith, with whom she was mixed up in a sensational divorce case, here some two years ago. Smith was sentenced to prison for a year on a statutory charge.

Whitlaw believes that Mrs. Whitlaw, Smith and the girl are on their way to Los Angeles, Smith having expressed the sentiment that he was "tired of this burg." Los Angeles would suit me better," he (Whitlaw) will, accordingly extend the search to Los Angeles through his brother, Frank S. Whitlaw of Buffalo, who has been here and also at Sacramento, searching for the trio.

The father is afraid to trust himself to meet them directly, for fear that he may do some harm to the mother or lover. He thinks that his brother, by laying the facts of her mother's life before the girl, may induce a return to her home in Coburn.

**MRS. COREY IN NEVADA.** RENO (Nev.) Feb. 28.—[Exclusive Dispatch.] Relatives of Mrs. W. E. Corey state positively that she is now in California, and is not going to Dakota.

## M'CURDY OFF FOR EUROPE.

**NEW YORK, Feb. 28.**—[Exclusive Dispatch.] Amid all the luxury that money can command, Richard A. McCurdy, former president of the Mutual Life Insurance Company, will sail tomorrow for his much-talked-of trip to Europe, aboard the Amerika of the Hamburg-American line.

The McCurdy suite is the one which the German Emperor would occupy were he to decide upon a voyage on the same ship. Its furnishings cost \$25,000.

Measures have also been taken to increase largely the strength of our navy in Oriental waters. In addition, the Consuls have been instructed to keep a sharp watch on the trend of events and to send the earliest possible notice of dangerous movements to the authorities here.

## ANTI-DYNASTY MOVEMENT.

Side by side with the anti-foreign feeling arose a movement directed against the governing dynasty. This latter movement had for its aim the modernization of Chinese institutions.

Investigation of Valencia Disaster Completed.

Federal Board Makes Public Portion of Report.

Merchant Ships for Transports Not Feasible.

(BY THE ASSOCIATED PRESS—P.M.)

SEATTLE, Feb. 28.—Federal Commissioners Murray, Smith and Burwell have concluded their investigation of the Valencia disaster and today made public a portion of their report, containing recommendations regarding aid to navigation needed along the Pacific Coast.

The members of the board say that there should be efficient lighthouses and fog-signal stations established at various points and that wireless communication should be established at various points and that communication should also be established by telephone and telegraph.

The commissioners also will recommend a life-saving station at Cape Flattery, to be furnished with a patrol system. Another station between Flattery and Grays Harbor will be recommended.

The commissioners today made a public test of tide life-preservers.

FOUGHT FLAME THIRTY DAYS.

CREW OF THE BERNIE HOME.

(BY THE ASSOCIATED PRESS—P.M.)

SEATTLE (Wash.) Feb. 28.—Seven members of the crew of the American bark Alden Besse, formerly owned in San Francisco, arrived today on the Great Northern steamer Dakota.

Their boat was abandoned to the uncertainties in Japan and the crew was sent home.

The Alden Besse, which was loaded with goods at Anacortes, for Osaka, Japan, in November, caught fire December 12. For thirty days, the crew struggled to smother the flames, battling down the hatchways covering the decks with canvas and filling all cracks with oakum. As the boat neared the Japanese coast, a storm that threatened for several days to wreck the craft, overtook the bark.

The fire was quenched in Kobe by submerging the vessel. She was sold to a Japanese syndicate and has been refitted.

PLAN NOT FEASIBLE.

MERCHANT SHIPS TRANSPORTS.

(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, Feb. 28.—Replying to the resolutions adopted by the Shipowners' Association of the Pacific Coast, which requested that the merchant marine be utilized by the government in preference to transports in conveying supplies and men to foreign shores, Quartermaster General C. F. Humphrey stated that, under existing laws, the plan would not be feasible.

One of the reasons given is that much freight has been rejected by the steamship men on account of contracts a preference.

The United States army transport Buford, Capt. Hall, arrived today from Manila, Sagami and Honolulu with eight troops of cavalry and many passengers. On the way from Nagasaki to Honolulu the Buford picked up a shipwrecked Japanese crew, who were landed at Honolulu. The Buford probably will remain in port a month before sailing again for the Philippines.

## CUBANS ARREST RASH AMERICAN.

POSTMASTER MOERKE REFUSES TO PAY A STORE TAX.

He Was One of the Officers of the Late "Territorial Government" of the Isle of Pines and His Sympathizers Threaten to Rescue Him. Conflict Possibly Impending.

(BY DIRECT WIRE TO THE TIMES.)

HAVANA (Cuba) Feb. 28.—[Exclusive Dispatch.] Another conflict between Cubans and Americans on the Isle of Pines is threatened by the arrest and imprisonment of an American, A. W. Moerke, postmaster of Columbia. Moerke, besides the post office, keeps a small store at Columbia and has not been paying a license.

When the Cuban authorities arrested Moerke, the judge informed him he must pay the license. The American refused and was immediately placed in jail, where, according to the latest news from the Isle of Pines, he still remains.

Moerke was one of the officers of the late "Territorial government." His sympathizers threaten to rescue him from prison. This, if attempted, will be certain to cause a conflict between the Cubans and Americans.

Latest Commission Sent from the Flowery Kingdom to Study the Trade and Political Conditions of the United States Lands at Port Townsend from Steamship Dakota.

(BY THE ASSOCIATED PRESS—A.M.)

PORT TOWNSEND (Wash.) Feb. 28.—Formal greetings to the Imperial High Commission, sent by the Chinese government to investigate trade and political conditions in the United States and Europe, were extended aboard the Great Northern Steamship Company's liner Dakota, today, by Consul-General Chung Poo Hsi of San Francisco and a committee of eleven Chinese and a committee of eleven Americans. Col. Hills, in command of the artillery posts of this district, boarded the ship and gave the welcome a touch of official recognition by the Federal government.

He had been invited to be one of the party by the Consul-General and the Seattle Chinese Association. The presentations of most of the Chinese, as well as of the Americans in the committee, had to be made in English, through interpreters with the party.

At the special invitation of the Great Northern Steamship Company, the members of the welcoming committee took breakfast on board the Dakota with the Chinese party.

that if Congress had the power to fix rates a commission can be created and it can be utilized only under some such statute as those enacted by the legislatures of Iowa and Wisconsin. shall continue unaffected until all property of such tribes or the proceeds thereof shall be distributed among the individual members of said tribes." The presentation of the substitute provoked debate which was participated in by Messrs. Clapp, Clark (Wyo.) to Cumber, Bailey, Teller, Spooner and others. Mr. Bailey said that his especial desire was to protect the In-

negotiated by the State Department with foreign countries. He finds there little or no sentiment in favor of the proposition. This was good news to the California delegation, which was kept busy several years helping kill reciprocity treaties negotiated by Mr. Mason, all of which provided a reduction of 20 per cent. on California products, such as citrus fruits, wines,

# STAND WITH THE PRESIDENT.

Coal Operators Anxious to Effect Settlement.

Cannot Grant Increase Demanded by Mitchell.

Decides to Issue a Call for General Conference.

(BY DIRECT WIRE TO THE TIMES.)

PITTSBURGH, Feb. 28.—(Exclusive Dispatch.) On excellent authority, it is learned tonight that nearly all the operators who attended today's conference here will stand loyally by the President in his efforts to effect a settlement of the threatened coal strike.

While the operators declare they cannot grant the 13 1/2 per cent. increase demanded by the miners, they take the position that they will not enter into another conference with the miners until the latter have agreed to a compromise.

Many of the operators, however, are inclined at the action of the United States Steel corporation in forcing a compromise on the Pittsburgh Coal Company, under threat of taking away its patronage. They say that, while it may be possible for companies that are not coal and make it up on steel or other commodities, companies that have no such opportunity must lose money if they continue in business.

CONFERENCE OPENS.

(BY THE ASSOCIATED PRESS.—P.M.) PITTSBURGH, Feb. 28.—Before the conference of bituminous coal operators of Pennsylvania, Indiana, Ohio and Illinois opened today it was generally conceded that the proposition to grant 13 1/2 per cent. advance would be laid before the operators and that it would meet with opposition from some of the independent operators, who freely expressed themselves as against granting any increase in wages at this time.

The conference opened shortly before noon and all but members of the State committee were excluded. Those present were: Pennsylvania, F. L. Robbins, John Jones, George A. Magoon; Ohio, J. H. Winder, A. L. Chapman, F. M. Osborne, T. F. Young; Indiana, C. Coulson, A. M. Ogilvie, J. H. Seifert, Hugh Sherkliff, J. Smith Tally; Illinois, H. M. Taylor, Col. O. L. Garrison. The conference adjourned about 12 o'clock and the announcement was made that it had been decided to issue a call for a general conference to be held in Indianapolis Monday, March 13.

STATEMENT ISSUED.

A statement issued by the joint committee in explanation of the action taken says: "In issuing a request for a conference of the coal operators of the States of Ohio, Indiana, Illinois and Pennsylvania at Indianapolis March 13 it is positively stated by all the operators joining in this call that such a meeting has been called entirely in deference to the wishes of the President of the United States and that no action has been taken or agreement of any kind made by any operator up to this date regarding any possible settlement of existing difficulties. No settlement is possible on any basis until after such a meeting has been held, and the views of all the operators of the four States have been obtained."

CONFERENCE RESISTENT.

Neither Chairman F. L. Robbins of the Pittsburgh Coal Company, who presided at the meeting, nor any of the operators present, would say anything after the meeting or tonight beyond the statement given out during the day. It was learned from a reliable source, however, that the meeting was most tumultuous and that several of the operators present expressed themselves in impassioned speeches. Indiana and Ohio operators stood as a body against granting the 13 1/2 per cent. advance while the Illinois and the Pittsburgh district operators were divided. The independent operators of the Pittsburgh district firmly opposed the suggestion for the advance.

Mr. Robbins took occasion to deny to an emphatic manner that he had any understanding with President John Mitchell of the United Mine Workers to restore the scale of two years ago.

MORGAN'S MAN HEARD.

President John H. Winder of the Sunday Creek Company, Columbus, O., which is the largest producer in Ohio, and a large operating interest in West Virginia, hotly contested the suggestion of any advance being made. Winder is recognized as the head of the J. Pierpont Morgan interests in the bituminous coal trade. George A. Magoon, vice-president of the Pittsburgh and Westmoreland Coal Company, and a member of the State Committee, said tonight: "Several of the men at the meeting were opposed to calling another convention of operators, but out of respect to President Roosevelt, we resolved to call a meeting. This does not mean that we will meet the miners. About 500 operators will decide whether we will do that."

ORCHARD SEEN BY COUNCIL.

WHAT DEFENSE MUST MEET.

(BY THE ASSOCIATED PRESS.—A.M.) BOISE (Idaho), Feb. 28.—Attorney Fred Miller, who was employed some weeks ago as counsel for Harry Orchard, today secured an order from Judge Smith, who will try the Steunenberg case at Caldwell, permitting him to see his client. When the lawyer went to the penitentiary he was put off by the warden until this afternoon. Miller expresses doubt that Orchard's confusion implicates the Western Federation of Miners, but says that if such a statement has been made, he expects to learn the exact facts by seeing Orchard. He hopes in this manner to ascertain what the defense must meet. The prosecution, for reasons known only to themselves, are guarding the prisoner Orchard more closely than any of the other men under arrest in this case.

Floyd Thompson, representative of the Colorado Mine Owners' Association, who is here from Cripple Creek, is said to want the prisoner Vincent St. John in connection with the murder of Arthur Collins at Telluride. Detective McFarland has stated that St. John is not implicated in the Steunenberg assassination by Orchard's confession. It is stated that St. John will be taken to Colorado when his extradition can be arranged.

DENVER, Feb. 28.—Gov. McDonald today denied that he had issued a regulation for Vincent St. John, one of the officers of the Western Federation of Miners, now in prison at Boise, Idaho. St. John was president of the miners' organization at Telluride when the assassination of Arthur Collins and J. W. Barney occurred.

## BIG HAIL IN UPPER VALLEY.

San Bernardino and Redlands Under White Mantle.

Much Rain in Mountains, High Wind Below.

Some Damage to Oranges and Other Fruits.

Hailstones in large quantities, many of them a half-inch thick, fell at Redlands and about the valley yesterday. As the snowing consistency there was great fun at snow-balling. About Redlands the storm did considerable damage to fruit, and particularly to the apricot and peach crops. The precipitation on the mountains about there was two inches, and there was in the course of the afternoon a heavy fall of snow on the heights. An electrical storm interfered with telephone and electric light and power service, especially at Highland, where the packing-houses were forced to close.

Figures reported on the precipitation at the storm at some of the points in the San Bernardino Valley were: San Bernardino, .25 inch; Redlands, .25 inch; Highland, .25 inch; Colton, .25 inch.

**SAFE AT RIVERSIDE.**  
The edge of the storm barely reached to Riverside. The temperature there was reported last night at 42 deg. at midnight, and rising. About San Bernardino county the fruit growers were prepared for frost.

**LOW AT MONROVIA.**  
About Monrovia the thermometer dropped to 32 deg. as a half storm struck the city at 2:30 p.m. It came from the north, where the mountains were black with clouds, and half as large as peas fell in Monrovia for twenty minutes, while the sun could be seen shining in the valley below. The hail was accompanied by some wind, and by 3 o'clock the mountains were a clear blue and the sun was shining brightly.

A tourist who felt the shower coming went up Sawpit Cañon, and reports that the storm there was of greater intensity. The hail was as thick as a man's thumb, and made him shiver. The wind swept the storm from there within a few moments after it broke. The manifestation is pronounced a most unusual one by old-timers.

**HIGH WIND AT SANTA ANA.**  
The high wind which prevailed at Santa Ana throughout the day blew down a brick column of the Spurgeon block on Fourth street, a banner advertising the coming horse show at Pasadena had been stretched across the street, and one end of the rope suspending it was fastened to the brick column. About 10 o'clock in the morning it fell with a great crash. A bicycle that stood directly beneath it was rendered a pile of twisted wire and iron. Luckily, no one was passing along the walk at the time.

About Bakersfield last night there was much apprehension among fruit growers on account of the weather conditions, and the prediction of the Weather Bureau for frost before morning. Fruit blossoms are now in that stage when they are most susceptible to frost. In the orchards to the north the peach trees are heavier with bloom than they have been for many seasons, and the prospects for a very large crop are of the brightest unless the blossoms are destroyed by frost. Late yesterday afternoon the city was swept by a storm of wind and hail that continued for nearly five minutes.

**PREDICTS HEAVY FROST.**

Weather Bureau issues Special Warning—Wind Reaches a Velocity of Thirty-Miles.

"If the wind comes you may look out for heavy frost before morning," said Forecaster Franklin of the Los Angeles office of the United States Weather Bureau. "It all depends on the wind. The light winds which prevailed today are due to the storm which is passing southeast and of which we were touched only with the edge of the wind reaching a maximum velocity of thirty-six miles per hour today."

Mr. Franklin explained that the existing barometric conditions are responsible for the present drop in temperature. He stated that there probably will be no unusually high wind today because the conditions which produced it yesterday will have changed.

The property will be subdivided immediately and placed on the market in 50-foot lots. The trees are being cut down and grubbed out. Normandie avenue is 80 feet wide, and Vermont avenue is 70 feet. There will be put in first-class improvements, with building restrictions.

## THE VALUE OF CHARCOAL

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion; it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal and other harmless ingredients in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some cases a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Intyre a ten-acre ranch at Glendale for about \$6000. The seller bought this property four years ago for half the money. It is close to the sanatorium, formerly Glendale Hotel. The buyer will cut the land into building lots.

Althouse Bros. report the following sales:

B. Fish buys of O. Leuchner a six-room bungalow, No. 1652 W. Twelfth street, lot 50x125 feet; consideration, \$2500.

J. R. Blow sells to C. H. Deley the southwest corner of Woodlawn and Miles street, lot 50x150 feet, unimproved; consideration, \$1750.

Frank Beman sells to M. Little a two-story eight-room frame residence, No. 2425 Romeo street, lot 50x125 feet; consideration, \$3500.

J. R. Toberman sells to J. G. Orth an unimproved lot on the south side of West Tenth street, 400 feet west of Figueroa street, 48x200 feet; consideration, \$1600.

## A NECESSARY EVIL

Experience of a Minister Who Tried to Think That of Coffee.

"A descendant of the Danes, a nation of coffee drinkers, I used coffee freely till I was 20 years old," writes a clergyman from Iowa. "At that time I was a student at a Biblical institute, and suddenly became aware of the fact that my nerves had become demoralized, my brain dull and sluggish and that insomnia was fastening its hold upon me.

"I was loath to believe that these things came from the coffee I was drinking, but at last was forced to that conclusion, and quit it.

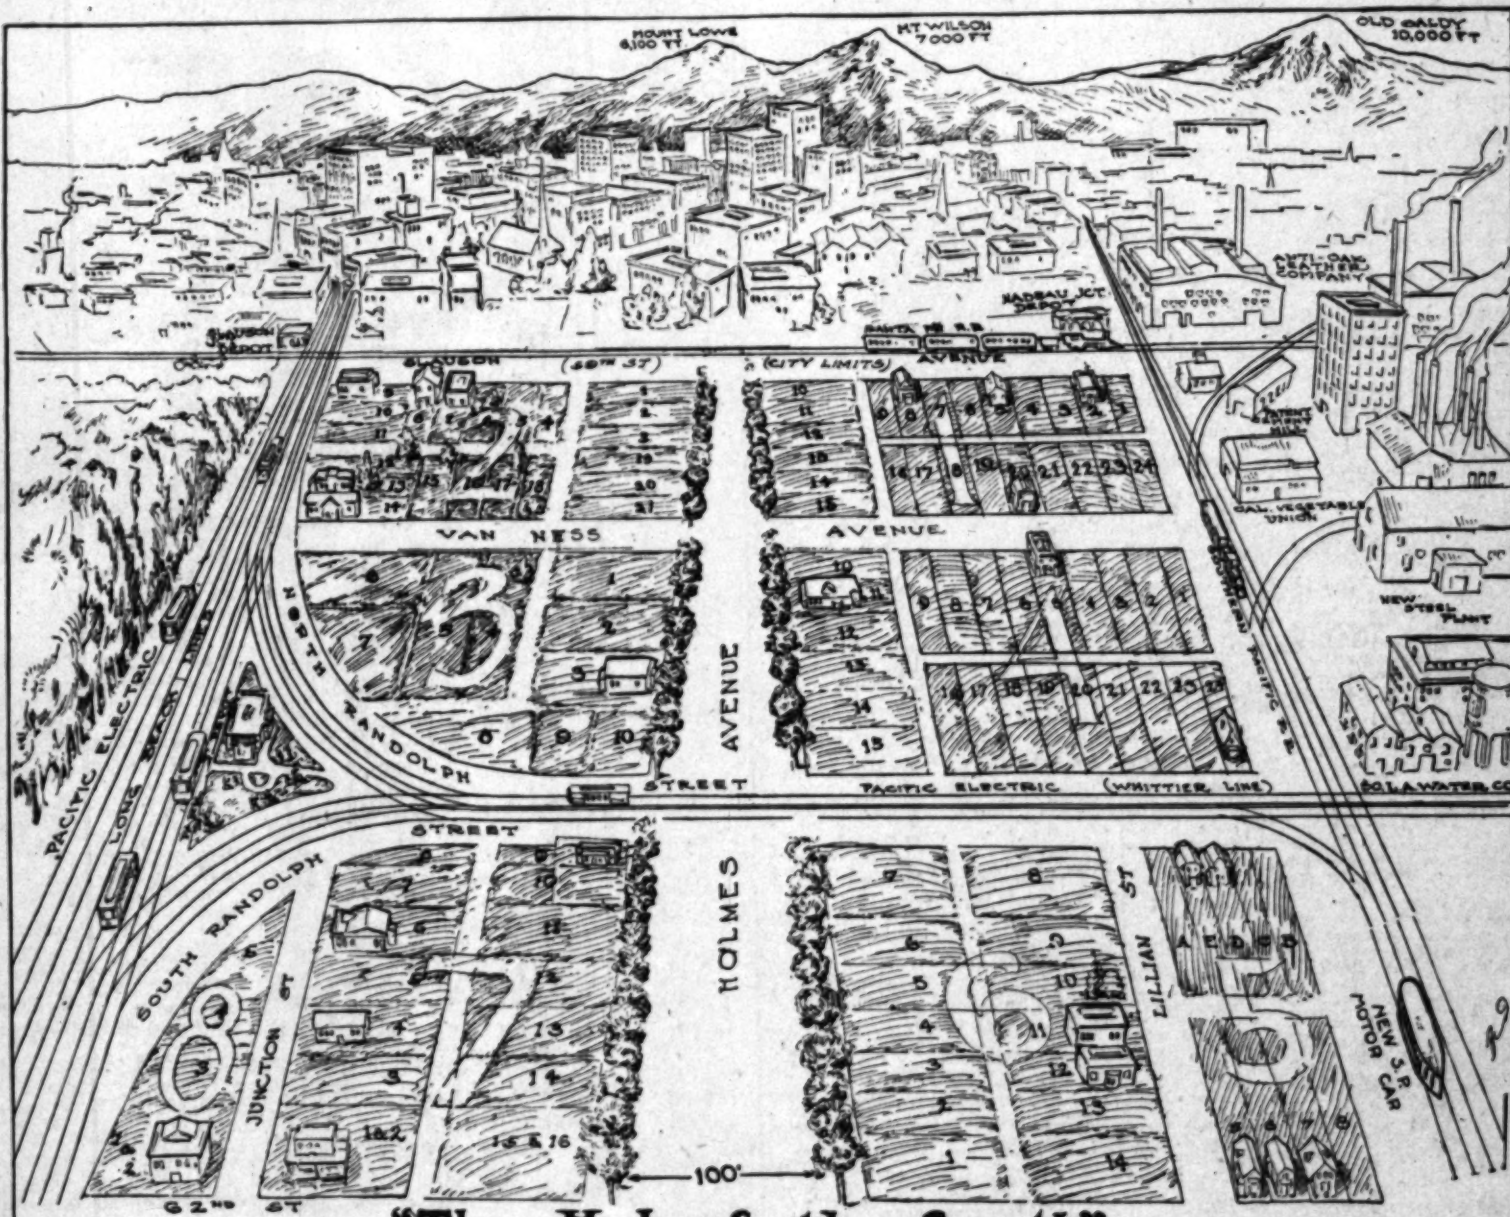

"I was so accustomed to a hot table beverage, and felt the need of it so much, that after abstaining from coffee for a time and recovering my health, I went back to it. I did this several times, but always with disastrous results. I had about made up my mind that coffee was a necessary evil.

"About this time a friend told me that I would find Postum Food Coffee very fine and in many respects away ahead of coffee. So I bought some and, making it very carefully according to the directions, we were delighted to find that he had not exaggerated in the least. From that day to this we have liked it better than the old kind of coffee or anything else in the way of a table drink.

"Its use gave me, in a very short time, an increase in strength, clearness of brain and steadiness of nerves; and sleep, restful and restoring, came back to me.

"I am thankful that we heard of Postum, and shall be glad to testify at any time to the good it has done me." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in page.

# An Opportunity Neglected

An Irishman once remarked he had noticed in his travels that "great rivers always run by big cities." If he had traveled in the United States and had absorbed some of the American calculating business spirit, his sharp Yankee "scent for a bargain" would quickly have shown him that big cities have sprung up along good railroads, too—but his chance for big, quick profits on central property there would have long been past. These patent facts would readily have revealed to the wideawake Irishman that transportation is the one great underlying cause for and beginning of the congregations of manufacturing, commercial and residential development and wealth. TRANSPORTATION spells in American business ethics OPPORTUNITY. It opens the way to fortune to thousands of shrewd, enterprising Americans—who grasp and quickly act.

In our section here the development of the famous Huntington Electric System created the opportunity for Los Angeles' marvelous record of expansion—and assures more marvelous records in future. The Long Beach electric line opened the growth of the section south. In three years it increased the value of property ten times. Its great future value has just begun to be indicated. Later the new line to Huntington Park and Whittier established an important SUBURBAN CENTER—and transfer point—at its junction with the Long Beach line. At this important point the Pacific Electric Company reserved seven acres for right of way, a handsome park and suburban depot site. This is just adjoining the south city limits of Los Angeles.

Here lies the great transportation center of Southern California. Study the bird's-eye sketch above well. Note the remarkable junctions of great railroads. Trunk lines of Pacific Electric and Santa Fe at Slauson Junction. Santa Fe and Southern Pacific crossing at Nadeau Junction. And the Salt Lake line is just east of the Southern Pacific. Switching lines between all systems. THINK OF THE SHIPPING FACILITIES. Do you wonder now that manufacturers are locating here and planning factories to require many hundreds of men. Or do you think these four great railroad systems are overlooking this grand opportunity for establishing an industrial center and creating tremendous traffic for their lines. No, the industrial center will be built to large proportions and importance—it is being built today.

You know what that means—get in on the ground floor.

Get a transfer from the conductor of any red or green city street car to Slauson Junction. Take south bound Slauson Jct. car on Main St. Cash fare 5c. Any south bound suburban car, Long Beach, San Pedro, Huntington Beach, Santa Ana or Whittier line will carry you—in ten minutes—to Slauson Junction, right on this tract. Book fare 5c. Our tract office is right there. Come down any day and look over this grand opening. Or call at our city office, Suite 331-3314 H. W. Hellman Bldg., cor. 4th and Spring St., for further facts.

Watch our space in this paper for full, important information of the future in the coming south.

The property is located at Fifteenth and Main streets.

**Forest Protection.**  
E. T. Allen, State Forester, appeared to the directors of the Chamber of Commerce yesterday in the interest of the protection of public and private forest holdings in this section of the State, under the law passed by the last Legislature. The Supervisors have authority to appoint foresters to supervise unprotected districts. A chamber committee will act in the matter.

More than 100 former New Hampshire people met last night at the assembly room of the Chamber of Commerce, and formed the New Hampshire State Society, with the following officers: Honorary President, Gen. Wentworth of Pasadena; president, Dr. L. F. Clark, vice-president, L. P. Chandler, secretary, Miss Bertha, and treasurer, W. A. Shaw. Short speeches were made by Prof. G. W. Sargeant, W. G. Gilbert, L. F. Dearborne, L. Wilcomb, a hotel man from the Yosemite Valley, and George A. Hostley. **Burlette's Lecture.**  
The Spring Festival of Song, which promises a unique and entertaining series of concerts in April, on a scale never before attempted here, in combination with pictures and musical and artistic parades of thousands of children, will be the beneficiary of a lecture to be given last night, Rev. Robert J. Burdette will deliver his famous humorous lecture, "Rise and Fall of the Mustache," in Simpson Auditorium, and the management is anxious that every seat in the great auditorium shall be occupied. Neither the speaker nor the subject need concern the people of Los Angeles, and the worthiness of the object for which he speaks may be judged by the fact that he does it gratuitously, that the song festival may have the full benefit.

Fifty Thousand People See  
Eastlake Flowers.

Finest Display Ever Made,  
Experts Declare.

Old Conservatory Causes Loss  
of Many.

Gorgeous in its masses of coloring, prodigal in its wealth of blossoms, and rich with the scents brewed by the fairies of Ambrosia, the annual spring flower exhibit at the Eastlake Park Conservatory is now at its crowning glory.

Within the past ten days fully 50,000 people have visited the conservatory and greenhouses and revelled in the splendid floral feast. In one day there were 20,000 visitors, and a constant procession moved through the buildings from early morning until late afternoon.

Each year these spring displays have been growing in extent and richness, but the present one is the pride of Florist William Gowan. It has no equal in the entire Southern California.

The principal glories of blossom in the first section are those of the Dutch hyacinth and the widely varied cinerarias. Both in standing pots and hanging baskets bloom the hyacinths, in shades of coloring from the pure white on through the delicate pinks and salmon to deep reds; and from the baby blues and pale, soft lavenders on to the deepest indigo shades.

In the cinerarias there is even a more marked variation, as they run from the most delicate shades down to the deepest tones of red; and there are many varieties which have brilliant combinations of coloring in white and reds and white and blues. Never has this display been equalled in Southern California, florists say.

As a heavier and more substantial backing for this mass of bloom comes the brilliant azaleas, with shading ranging from white to deepest red, and with many combinations of shades with white.

Then the fillers come in as Chinese primroses, cyclamens and begonias; while the brilliancy of the whole display is carried out by a crowning tier of vivid poinsettias, standing beneath the very cone of the glass roof.

The Eastlake Park conservatory, its director, and glimpses of its floral beauty.

As a foil for this brilliancy comes the best section of the conservatory, with its soft, dark greens of fern and tangle of tropical vine and shrub; and at the north end is the always-attractive orchid room. At present there are several beautiful displays there, although the florist is longing for the time when he will have a separate building exclusively for orchids.

RELIC OF VILLAGE DAYS. Among the daily visitors to the conservatory are hundreds of tourists from the Eastern States, and while they are all profuse in their praise of the floral beauty on exhibit, it must be confessed they have not always been complimentary in their remarks about the housing provided for such treasures.

And it might as well be confessed that this is a very tender spot with the Board of Park Commissioners, and especially with Florist Gowan, who has put in so many years in bringing the conservatory display to its present state of perfection.

The bald truth is that Los Angeles is trying at the present time, with more than 200,000 inhabitants, and great expansion in all lines, to get along with the same greenhouse and conservatory facilities it had fifteen years ago, when this was simply a big, overgrown village.

As a matter of fact, the whole blooming greenhouse is liable to collapse on one of these windy days, and ruin may sit astride of what is now the home of Flora's choicest treasures. Sills are rotted, beams are warped, slides are sprung and roofs are like sieves. Hundreds of really choice plants have been ruined by the leaking roofs during the past rains. Hundreds more are simply at the mercy of the rains which are sure to come. The patching process has been carried out to the limit.

NEW CONSERVATORY NEEDED. Eastlake Park needs a new conservatory.

What's It for, and Why This

## TERRIBLE JAR OF TROLLEYS.

University Car Bumps Into  
Rear of Another.

Several Passengers Injured,  
One Perhaps Dying.

Running Too Close, a Crash  
is the Result.

Cars of the University-Garvan line crashed in a rear-end collision yesterday afternoon at 1:45 o'clock at the intersection of Estrella avenue and West Twenty-first street.

George H. Lettau, the man with money enough to fill a trunk, who bought puzzling stripes of ranches near Compton at the owners' prices. He wanted the land and simply couldn't resist leaving the coin.

Or the rumored boulevard to the sea? Lettau dropped quietly into Compton one morning this week and said he wanted to get a ranch for his mother. His mother must have a fierce appetite for ranches.

Lettau is a genial, pleasant young man, and nothing was thought about it. He first looked at a twenty-acre ranch belonging to T. W. Edwards. The price asked was \$550 an acre.

He drew his roll of "long green" and got rid of a few slabs, annexing the Edwards ranch without a question.

Next to the Edwards ranch are ten acres belonging to Dr. Pratt of Compton. He would meet Dr. Pratt in his office. One of Dr. Pratt's tenants rushed to the office anxious to buy the place himself; but the quiet young man was already getting rid of another chunk of his roll at \$400 an acre.

He said pensively that he guessed he would go down and have a look at his new possessions.

Before he got out of town he had bought seventy acres of land at a cost of nearly \$35,000. He did not give a check in any transaction. He left a trail of coin and "long green." Although he did not pay the full amount of the purchase price, he made a liberal cash payment in each case.

Since that busy morning, he is said to have made other visits, a ranch sticking to him at every footfall.

Parts of the Carson, Hastings, McIntosh and Stockwell tranches he has acquired. All his new holdings lie in a most significant strip east of Compton along Temple street.

Among the properties known to have been bought in: O. T. Pratt's ten acres, corner of Temple and Olive, for \$400 per acre; T. W. Edwards' twenty acres at \$500 per acre; R. H. Dimmock's fifteen acres at \$350 per acre. The five acres of F. E. Colton for \$300 per acre, and C. E. Wood's fourteen acres at \$500 per acre.

Some of the land brought more than the market price. Some of the sellers are free to confess to each other that they were surprised at getting the prices they asked. Others are sore because they did not ask more.

At the time of the purchase, a number of them tried to squirm out of young Mr. Lettau the object of his buying all this land. He told them that he wanted the land; that he wanted it for his mother; or merely evaded the question altogether.

The accident occurred while car No. 224 of the Los Angeles Railway Company was unloading passengers at Twenty-first street. Just after the last passenger had alighted, car No. 327 struck the rear with terrific force. The negro was leaning against the back of car No. 324 and was struck on the head and rendered unconscious. He was removed to the Woodside Hospital, and Dr. J. F. T. Jenkins attended him.

Mr. Akim was at home, but declined to answer the telephone. Dr. Jenkins, himself a passenger on the car, stated that he believes the accident could easily have been avoided. He declared the motorman of the rear car had approached several times before the accident to within a few feet of the car on which the doctor and others were riding. It was while the motorman was again trying to make a close stop that the collision occurred.

"In my opinion the accident was a result of the carelessness of the motorman on the car behind us," said Dr. Jenkins last night. "I was on the front of the car, but, with others, I noticed the rear car following dangerously close. When we had stopped at West Twenty-first street the terrific crash came. The negro was struck on the back of the head and was rendered unconscious. It will be impossible, for the next twenty-four hours, to ascertain how badly the man is injured."

Miss Smith was seated at the rear of the last car. She saw a fire in the front of her car before the collision and thought an explosion of some kind had taken place. She was rendered unconscious and was assisted to a house near the scene of the accident. Her face is severely bruised and both her eyes are blackened.

A lad who was sitting opposite Miss Smith was hurled against the glass of the car, several teeth were knocked out, and a tooth was driven through his upper lip.

Miss Hough was on the rear car. She said the motorman had done all in his power to stop the car before the collision. She was thrown forward against the bars of the glass. She stated that eight other women passengers on the car suffered from the shock, but were not seriously injured.

The motorman of car No. 327 had a narrow escape. He was the target for a hail of flying glass, but escaped with only minor cuts. The street near the scene of the accident is littered with broken glass. The windows in the front of car No. 327, and in the rear of car No. 324 were smashed, and some of the woodwork of both cars was broken. Neither car left the track.

INDIANAPOLIS SOCIETY. The Southern California Indianapolis Society met Tuesday evening at Mammoth Hall, No. 517 South Broadway. It had been whispered among the members that they should mask, and about twenty did so, furnishing great amusement for the rest. The maskers' costumes were unique and very complete. Mr. and Mrs. Frank Meyers won the first prize, and Chester Brewer and Miss Tilly Cunningham came in for the "bookies." The evening was entirely informal, dining nights have been changed to the first and third Tuesdays of each month in hall No. 4, No. 517 South Broadway.

William Gowan,  
head florist.

He never stopped to reason why; he never disputed a price. The farmer would shut his eyes and stutter out the highest figure he could think of; then dodge. The buyer only pulled out the bank wad and paid over the money, accepting the first price that

# RACE SCANDAL IN THE AIR.

Half-Day Devoted Entirely to Evidence.

Session Private and Public is Kept Outside.

Manager Brooks Also Files Some Charges.

The Ascot Park racing scandal, whatever it may turn out to be, is still up in the air, for after a half-day trial of the case yesterday, the information was given out late in the afternoon that the charges against Manager Brooks would not be passed upon until today.

The case was tried in secret session in the directors' room at the race track, and although eight witnesses were examined on one subject, and another, there was no information given out, as everyone seems to be willing to rest until a decision is arrived at by the directors. The chances are, however, that the case against Brooks will not amount to anything, for there seems to be little but circumstantial evidence on which to base the charges.

From being the one that was stung, Manager Brooks now suddenly assumes the role of stinger, for he has filed charges against his accusers, and them in turn will probably have to be acted upon before a decision is arrived at, as it may be the end of the week before the public knows just who is who.

Brooks comes to the front with a hot rest on C. T. Boots, J. J. McCafferty and Henry McDaniel, who were the accusers, and declares that the three men caused to be published the statement that they had filed charges against him, and that the charges were untrue. Brooks also declares that the three men caused to be published the statement that they had filed charges against him, and that the charges were untrue.

Racing at Ascot was very much of an uncertain quantity yesterday, owing to the charges that Brooks had filed against the directors, which was not published until this morning. The race was not particularly interesting, and it might be said that the only one was the tiny half-horse that came about the middle of the afternoon, and which amused the eastern people, who are used to these things.

# WOMEN'S CLUBS.

Miss Helen Coan addressed the Rus-  
kin Art Club yesterday on "Japanese  
Art." Mrs. W. F. Kesteven and Miss  
A. E. Wadsworth were in charge of the  
morning and the subject was a pleas-  
ant break in the long-continued study  
of American architecture which has oc-  
cupied the club for some time. Miss  
Coan illustrated her talk by a choice  
collection of Japanese prints in the  
dull blues and greens with which the  
oriental place objects so exquisitely  
before the eye. The tables were strewn  
with some fine specimens of black  
and white art, the collection represent-  
ing for the three schools in  
Japan one of which casts entirely  
aside the old oriental method and imi-  
tates the occidental style. Another  
which goes to the opposite extreme,  
keeping only to the old traditions of its  
oriental ancestors, and a third  
which is a medium between the other  
two, bringing out the best in each.  
Next Wednesday morning Mrs.  
Blanche Dugan-Coan will talk to the  
club about the art schools of Paris,  
which will be of especial interest, as  
Mrs. Coan will speak from personal ex-  
perience, having been a pupil with  
Whistler, and latterly with Charles  
Lazar.

## Lechner Before Friday Morning.

Members of the Friday Morning Club  
are looking forward with much antici-  
pation to the musical morning tomor-  
row when the eminent pianist, Franz  
Robert Lechner, will make his initial  
appearance in Los Angeles. He has  
been pianist for Her Royal Highness,  
the Archduchess of Austria, and his  
programme here will include the fol-  
lowing choice numbers, which will ap-  
peal to lovers of classic music:  
Rondeau in G major (Beethoven).  
"Papillons" (Schumann). "Marche Su-  
perbe" (Chopin). "Gondoliers" in F  
sharp major (Liszt). "Sonnet de Peper-  
raza" in E major and in A flat ma-  
jor (Liszt). "Rhapsody Hongroise," No.  
11 (Liszt). "Hochelshausen" (Gung-  
righen-Aus). "Ein Sommer Nacht's  
Traum" (Mendelssohn-Liszt).  
All the March meetings of the club  
will be of special interest. On the  
8th the session will be devoted to a  
report of the delegate, Mrs. R. H.  
Feldman, to the State convention. On  
Tuesday, the 12th, there will be a re-  
ception in honor of Dr. and Mrs. Doug-  
las Hyde, in charge of the Book Com-  
mittee, of which Mrs. Austruther De-  
vidson is chairman. On the 16th there  
is to be another musical morning—a  
Wagnerian recital—"The Meistersinger,"  
given by Mrs. William S. Crosby.  
On the 21st there is to be a Celtic  
morning in charge of Mrs. J. S. Val-  
ley, with readings by Mrs. Merrill M.  
Grigg and songs by Tom Karl and a  
luncheon to follow. The last Friday  
of the month will be devoted to "Old  
Archives of Los Angeles," given by  
Harry J. Leland.

## National Mothers' Congress.

The first meeting of the National  
Mothers' Congress, which con-  
venes here May 7-10, will be a social affair  
at the rooms of the Friday Morning  
Club on the evening of May 7. One  
day of the convention will be entirely  
given up to conferences from the var-  
ious States and countries represented.  
No less than seventeen foreign coun-  
tries are now in correspondence with  
the national society, of which it is  
expected will send delegates.  
There are now twenty-four States or-  
ganized, four of them—Arizona, Ore-  
gon, Washington and Idaho—having  
come into the circle of the national con-  
gress within the past year. The deli-  
ciousness of the convention will be held  
in the Polytechnic High School audi-  
torium, and in the rooms of the Friday  
Morning Club. There is to be a Pasa-  
dena day when the mothers of the  
Crown of the Valley will be hostesses.  
It is expected that Mrs. Theodore W.  
Birney, the organizer and first pres-  
ident of the Mothers' Congress, will be  
present. She is now in Mexico and has  
recently arrived at the dignity of  
grandmotherhood, the first grandchild  
being the little daughter of the child  
whose whimsical she adorned the pro-  
grammes of the first national congress,  
held in Washington, D. C., ten years  
ago.

## MACKIE INDEPENDENT.

Retires from Mackie-Fredricks Fur-  
niture Company and Will Start His  
Own Establishment.

William Mackie, for the past two  
years head of the Mackie-Fredricks  
Furniture Company, has retired from  
that firm, having sold his interests yester-  
day, to the Pacific Purchasing Com-  
pany, a pool of local furniture dealers.  
The Mackie-Fredricks Company will  
continue in business under that firm  
name, with Joseph Mackie as manager.  
Mr. Mackie states that he retired  
from the firm because of radical differ-  
ences of opinion in the methods of con-  
ducting the business, and that he was  
not in sympathy with the management  
of the Pacific Purchasing Company,  
which does the buying for several lo-  
cal houses. He says that he deemed it  
best for his interests to occupy a po-  
sition as an entirely independent fur-  
niture dealer.  
His withdrawal from the Mackie-  
Fredricks firm means another large  
furniture establishment in Los Ange-  
les. Mr. Mackie stated yesterday after-  
noon that he has plans maturing for  
the opening of the largest furniture  
store west of Chicago.  
He is negotiating for the erection of  
a seven-story building, to be built  
on plans of his own drawing, and to be  
leased by him for a long series of  
years. It is expected that the details  
of the matter will be completed today.  
The management of the Mackie-  
Fredricks Company by William  
Mackie has been a very successful one.  
He came to Los Angeles from San  
Francisco two and a half years ago,  
and selected a site at Nos. 541-43  
South Broadway, the present location  
southward in the business section.  
However, his good judgment was  
proven by the first year's sales,  
amounting to \$250,000, and the sales of  
the second year reaching the \$500,000  
mark.  
Mr. Mackie says his new store will  
be entirely independent of any fur-  
niture trust or combination, and that he  
has ample capital backing him to give  
Los Angeles the finest furniture es-  
tablishment on the Pacific Coast.

# THE MARK OF GOOD LUTHER.

Come in and shake  
hands with the  
new Spring Styles.  
(Advance samples  
are here). Get ac-  
quainted with  
'em. Some of the  
extreme shapes  
may scare you a little  
at first, but there are  
a good many young men  
in this Burg who ap-  
preciate new styles  
and want 'em while  
they ARE new—before  
everybody has 'em.

# HITS HARD AT ASCOT CROOKS.

Racing Man Says They're  
Too Tough for Montana.

Cannot Run Their Horses at  
That State's Fair.

Local Crowd Disgusts North-  
ern Sportsmen.

John W. Pace, secretary of the Montana State Fair Association, who is at the head of the new racing circuit to be established in that State in July, has been in Los Angeles for the past week, quietly scanning the racing situation at Ascot. On his return to Helena last night he carried with him several solemn resolves. Chief among these is one that crooked horsemen must not invade the Montana field.

Pace is not unknown to the Ascot "bunch." They have met before on several occasions, and Pace has won in each instance. The object of Pace's visit was ostensibly for pleasure, but he made a quiet investigation of racing at Ascot, and returns home with enough data to assist him in erecting a bar against every man now in bad odor at the local track.

Pace is a business man, as well as a true sportsman. He has borne that reputation in his home State and as secretary of the State Fair Association, keeps posted on all sporting events allied with horse racing. This feature is a leader at the State Fair, and this year will be more prominent than ever from the fact that, beginning with July next, the Montana racing circuit will be formed, embracing three months of harness and running races.

Large sums of money are being expended in perfecting tracks and remodeling old race courses, and a bid will be made for the best horses in the country, attracted by large purses and ideal conditions. The races will begin at Butte in July, embracing a circuit of every important city in Montana. Finally winding up at the State Fair meet in September.

One week ago William Gemmill, a horse owner and sportsman from Butte, was in Los Angeles, and took a quiet look into conditions and methods at Ascot. Gemmill was satisfied that what was not right, and returned home to discuss the matter with his colleagues. Whether Gemmill's visit had anything to do with the visit of Pace, the latter would not say, but he was willing to give out something concerning his observations.

"There is something rotten in Denmark," said Pace last night, just before departing for Helena, "and I have my mind that certain horsemen now operating at Ascot shall not enter Montana if I can help it. We are arranging for racing there, but we will have nothing but clean sport, and I shall put up the bars against every owner or manager who comes with talent or suspicion against him. We had a sample of those methods once, but not as pronounced as you have it here, and we will cut them off at the pockets."

WANTING TO BE CURED.  
"I do not stand well with many of the Ascot bunch. They have felt my hand before, and would like to beat me out, but they will find a stone wall to run against in Montana. We like clean sport, and are willing to hang up good purses, but those at the head of racing in my State are sportsmen who will demand a clean game, not a good thing gamble."

"I shall serve warning on those now in bad odor at Ascot to make a wide detour when they start toward Montana. We do not want them and they must stay out."  
The present scandal is a disgrace, and is ruining the sport. We have men of honor and integrity interested in the coming meeting, and they are determined as I am to see that crooks and others are sent on their way."

Pace would not discuss the merits of the scandal, further than to express the opinion that there were grounds for public condemnation of general methods at Ascot.

## RAVES AGAINST WIDER "SUNSET."

"CRIB KING" WANTS PRICE FOR  
BOULEVARD PROPERTY.

"Old Man Ballerino," One of Principal Objectors to Plan for Fine Street, Says "Wide-Open" Town Would Win Him—Protest Numbers but Small Proportion of Owners.

Against the proposed opening and widening of Sunset boulevard to the Plaza a protest, signed by several large property holders in the vicinity of the Church of Our Lady of the Angels, is ready for presentation to the Council.

Bartolo Ballerino, Mrs. Mercedes Abbott and several prominent Spanish residents of San Fernando, Castelar and North Main streets are the principal objectors. They say the undertaking will be too costly and will destroy several of the ancient landmarks of the city.

Lord in his objection to the plan is "old man Ballerino." In his home in the crib district he voiced a vigorous protest yesterday against the proposition. The former "Crib King" has large holdings which would be affected by the opening of the street. He says he cannot afford to spend so much money. He probably is the wealthiest property-holder among the objectors.

"The long hairs who chased my tenants away are back of this scheme," said the old man yesterday. "I am not going to give them my hard-earned dollars. If they will agree to let this town run wide open then perhaps I will favor the plan. They want everything and they don't want to give me anything. I'm sick of these fellows."

"What have they done? They have killed this end of town by driving the girls away. They expect to me good by running that wide street through, but they won't get any of my cash to do such a foolish trick. They had better let us alone. They have done enough harm."

The Mexican residents of Sonoma are a unit against the plan. They have been told the Church of Our Lady of the Angels must go, to make room for the fine street. They say the "Grisinos" have taken enough from them and they declare they will fight the boulevard proposition.

It is said that after a twenty-three days' house-to-house canvass, the protest contains the signatures of those representing 250 feet out of a total of over 1,000 feet of property along the desired right of way. This is a fraction less than one-half of 1 per cent. of the district to be annexed.

Those who have the plan in hand de-

WOODSTOCK PICNIC.  
More Than One Hundred McHenry County, Illinois People Have  
Reunion at Eastlake.

The third annual picnic of Woodstock, McHenry county, Ill., took place yesterday in Eastlake Park. More than one hundred people from that locality assembled and enjoyed a basket dinner on the picnic island. The annual election of officers resulted in the selection of Rev. M. H. Plumb of Long Beach as president; Mrs. Adia Barrows Foodick of Pasadena as secretary; and Arthur Miller of Pasadena as treasurer.

SLAP AT "KNOCKERS."  
Pravocating Real Estate Brokers  
Must Behave or Stay Away from  
Chamber of Commerce.

"Knockers" must beware. The Chamber of Commerce is on their trail. The Chamber isn't going to take the contract of putting all the crooks out of business, but it is after some of them with a sharp stick. There have been complaints lately that unreliable individuals doing a crooked real estate business have been misrepresenting certain sections of the State to visitors, to enhance the value of the part that they are trying to sell.

Announcement is made of the marriage of Brooke Baker, a prominent clubman of Washington, to Mrs. Aubrey Boucault, the actress, of Rochester. The couple will enjoy their honeymoon in Europe or Mexico.

## CURES WORST CASES OF CATARRH

Just Breathe Hyomei Four Times  
A Day and Be Cured.

Not until Hyomei was discovered, had it been possible to say truthfully that a remedy for catarrh was known.

Hyomei cures the worst cases of catarrh simply by breathing the remedy through the pocket inhaler that comes with every outfit. "Using the treatment in this way for a few minutes four times a day, every particle of air taken in the air passages and lungs is laden with germ-killing and health-giving Hyomei."

Stomach drugging often causes disordered digestion, and never makes a permanent cure of catarrh. Hyomei not only kills the germs in the throat and nose, but penetrates to the minutest air cells in the lungs and enters the blood with the oxygen, killing the catarrhal germs in the blood.

The complete Hyomei outfit, consisting of a vest-pocket inhaler and medicine dropper, and a bottle of Hyomei, costs only \$1. If this does not effect a complete cure, extra bottles can be obtained for 50 cents.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for a free sample bottle and consultation blank that will entitle you to services of our medical department without charge. The R. T. Booth Company, Hyomei Building, Ithaca, N. Y.

## THIEVES LEAVE FIERY TRAIL.

Start Blaze to Conceal Burglary of House.

Burning Fuse is Snuffed at Opportune Time.

Police Find Plain Traces of Incendiarism.

One of the cleverest robberies and most deliberate plans at incendiarism ever perpetrated in Los Angeles was unmasked by a police investigation last night.

The fire, by means of which the thieves expected to suppress all knowledge of their operations, was discovered in time to prevent a serious conflagration, but over \$400 was stolen from the home of a number of Japanese residing at No. 40 Wall street.

The investigations of the detectives indicate that the burglar-thieves are a portion of the gang which has been at work in this city for several weeks, causing considerable consternation to the occupants of the homes which have been made the object of the operations.

Eight Japanese residing in Wall street which was burglarized yesterday, and T. Munakawa is the member of the household who discovered the fire in time to prevent a serious conflagration.

The Japanese are employed mostly as waiters and cooks, and occupy all the rooms in the house. During the afternoon yesterday they all were absent, occupied with their work in the downtown district, leaving the house open to the work of the marauders.

From the appearance of the house last night it is evident that at least three men entered the place. They began a systematic search of the entire premises, and spent several hours in ransacking the dressers and closets in each bedroom.

The burglars were in search only of money, and from each room collected a small sum which had been stored away by the occupants. No clothing or jewelry was taken, and the only thing which was found, however, in the scheme to fire the house after the thieves had been given ample opportunity to make good their pilferage.

In a front room a quantity of excellent was piled in the middle of the floor in the center of this place, and a lighted candle. A string was attached to the candle. Just as the burning cord was about to ignite the inflammable material placed around it, Munakawa, returning to the house, burst into the room and extinguished the candle.

The whole plan was remarkably ingenious, and only the misadventure of a few minutes prevented the burglar from accomplishing their purpose.

The occupants of the place include M. Hamada, S. Isikawa, M. Manaji, S. Kawai, K. Kawai, F. Furuya, and T. Munakawa.

Detectives Hawley and McKenna were detailed on the case last night, and it is thought that some tangible clue may be secured in this case which will lead to the apprehension of the gang responsible for the wholesale destruction of property in fires of the last few weeks.

**LOVERS' HASTE WINS SOCIETY.**

APPLAUSE GREETS CALVIN-KIMBLE "RUSH" WEDDING.

Pittsburgh Friends of Pretty and Wealthy Young Bride Always Declared She Wouldn't Regard Conventions When She Chose to Wed—and She Did.

The interesting "rush order" marriage of pretty and rich Miss Albin-Kimble, Calvin, of Avalon, and rich and handsome young E. W. Kimble, an attorney of Carrollton, Mo., last Monday evening, continues to be a sweet morsel of gossip in society circles.

As a matter of fact, society claps its dainty hands in applause for the impetuous young lovers who would not be separated by the plans so methodically made by Miss Kimble for the trip to Mexico, and thence on to Japan.

Kimble's sudden approval on this union is a pretty madman, and a dashing young man, this mating of two young people, each of whom has an independent fortune, but who are old-fashioned enough to wed for love's sake—even if it does upset Miss Kimble's traveling plans.

Back in Pittsburgh, where the Calvins are prominent, the news of the hurried wedding at quaint little St. John's Church in the city of Los Angeles, and the bride's departure for Japan, was a great surprise to the bride's society friends.

They always declared that "Albin," as they called her, would marry whom she chose, when she chose, and in just the manner that suited her best, and the bride's departure for Japan, now declared that their prophecies have come true.

The pretty young woman was the idol of society in Avalon and Bellevue, which are two of Pittsburgh's suburbs. Her father died in Albuquerque, N. M., before she was born, and at her birth, soon afterward, the baby girl was given the name of Albin-Kimble, which her father had breathed his last with a blessing on his lips for the child he was never to see in this world.

Mrs. Calvin, mother of the bride of Monday evening, is the daughter of one of the rich men of Pennsylvania, and she is the owner of a large part of the town of Cookeville, and a man of extensive interests in the Keystone State.

Just before leaving for Japan, the bride's father had purchased a house in M. O. Coggins, a merchant of that city. Coggins never lived to enjoy the beautiful home he had purchased. He was thrown and killed by a horse which he had purchased from Vice-President Fairbank.

Further says that there was an estrangement—or at least very strained relations—between Mrs. Calvin and her daughter for several days before the hasty wedding, and that this may have helped the impetuous young lady to break up her mind to consent to the plans of Attorney Kimble for a wedding instead of a Mexican tour.

All families who bring up their children with wine at their table will be blessed with a healthy and happy family. The Italian Swiss Colony's Anti Typhoid Information, is superior to all.

## \$1000 Gift to Any Weak Man

I want to help men who are weak in vitality, who are nervous, despondent and lacking in confidence; who feel as if old age was coming on too soon because of the dulling of their youthful fire and ambition. I want to help men who have varicose veins, pains in the back, rheumatism, weak stomach and general indications of breaking down. I can help you if you are such a man, and I want you to feel sure of it. I don't want any man's money unless I can cure him. I will not take any man's money if his case is incurable by my Electric Belt. I want you to be sure of that, and so I make the following offer:

I will pay \$1000 in gold to any weak man who uses my newly improved Electric Belt and does not get better. I cannot make him sound and strong. No man who needs my treatment will doubt my ability to cure him. I want you to come to me at once and let me show you that I can do for you what I have done for thousands of other men as bad or worse off.

I can make a man who is a weakling into a man of power. I can make a man who is a weakling into a man of power. I can make a man who is a weakling into a man of power.

Life is weakened organs; it drives away pain. It is doing these things every day, and you are not aware of it. Are you so far gone that there is no hope for you? Are you a physical wreck? If not, then come to me. I can cure you, and I will.

What is the use of dragging yourself around among men feeling that you are not like them, that you are not the man you ought to be, when you might as well hold up your head and feel like a two-year-old?

Don't you want to feel the vim and life in your nerves as you used to see the spark in your eyes; to have the spring in your step and the lightness in your heart that go with vigorous manhood? Life is too short to miss any of the pleasures that belong to it; so why don't you enjoy them as long as Nature intended?

Dr. McLaughlin—I have been wearing your Belt off and on for the past ten years as a general invigorator, and although I am 75 years of age I must say I have been able to hold my own with men much younger than I am. It is the most wonderful remedy that I have ever used, and I attribute my good physical condition to its effect. Yours truly, G. W. SCOTT, Madison, Yolo County, January 4, 1934.

I can take any man who has a spark of vitality left in his veins and fan it into a flame and make him feel like a Hercules! How do I do it? By filing the blood, the nerves, the organs and muscles with electric energy—that is what nature gave them at first; that is what they have lost when you break down.

That is how I cure, and that is why I am so sure that I can cure. You have the body that needs the power and I have the power and know how to use it.

Dr. McLaughlin—Dear Sir: I am glad to be able to tell you that the pains in my back have disappeared, my strength is improving wonderfully, and am feeling fine in every other way—better than I have for months. My muscles seem to be firmer, and even my courage and self-confidence are returning. Yours truly, GEORGE M. NEILL, Ex-Councilman, 6th Ward, 115 G. St., San Diego, Cal., Dec. 22, 1932.

Do you notice how enthusiastic my patients seem to be? See the praise they give me! They are all men full of an idea, overflowing with expression, just as anyone who is immensely pleased.

If you have been paying money to doctors and taking nasty drugs for years, and all you find is a new lease on life after using my Belt for a month, you will be enthusiastic, too. You will want to go out on the highways and shout, and you won't care who knows that you were once a weakling, because now you are cured and a man again.

Dr. McLaughlin—Dear Sir: About two months ago I purchased one of your high-grade Belts, having suffered for fifteen years previously with Indigestion, Constipation, Nervousness, Lumbago, and in fact, every part of my system impaired. I began to improve very shortly after applying the Belt, and today feel like a two-year-old. My Constipation has been completely overcome and I now have a regular movement of the bowels—something I have not had for fifteen years. I take pleasure in recommending your Belt. Yours very truly, Santa Anita, 1220 Chestnut Ave., Santa Anita, Nov. 23, 1935.

Why say more? Isn't this enough? Aren't you convinced that I can cure you? If you want more proof, tell me where you are and I can give you names of people near you. You can see them and ask them what I have done for them. The word of an honest man cured in more than all argument, and I have thousands of them.

Now don't delay. Enjoy all the happiness you may in this world. You can have none without health and strength. Call and see me, or write to me and let me tell you whether or not you are a candidate for my Belt. I will mail you a booklet which explains my treatment. If you will send this \$1.00 I will mail sealed, free. Consultation free. Act now.

## OAKLAWN

"The Jewel of the Pasadena"

You can't truthfully say that you have seen the handsomest residence property on the market until you have visited Oaklawn.

You can't say that you have made the BEST INVESTMENT (if you want high-class property) unless you have purchased at Oaklawn.

Ten minutes of careful investigation will convince you that Oaklawn has the BEST scenic advantages, the BEST street, landscape and architectural improvements, and the "luckiest" location.

Oaklawn is a "residential vantage point." It is close to several of Pasadena's most famous homes.

The entire subdivision overlooks the Raymond Hotel golf links and the San Gabriel Valley, and also

commands a close panoramic view of the towering mountains.

Nearly \$100,000 worth of building improvements are in progress.

Pacific Electric car service brings Oaklawn nearer the Los Angeles business district than Kinney Heights or West Adams Heights.

Considering the exceptional character of Oaklawn, prices of lots are unusually moderate.

The above picture but slightly suggests the artistic side of Oaklawn.

DISINFECTION IMPORTANT.

Results Obtained in a Large Institution.

The importance of disinfection is evinced by the results obtained at the Brooklyn Home for Consumptives, the finest institution of the kind in New York. A letter from the President is quoted:

"We have used Platt's Chlorides in the Brooklyn Home for Consumptives for more than ten years, and find it not only a comfort but a necessity. Through its use we defy 'the germs' to make any inroads on the nurses and employees who are in constant attendance upon the sick, one hundred of whom are now in the institution. One nurse has been there well on to ten years, a second almost as long, and not one person ever employed in the Home has developed lung trouble."

Mrs. S. V. White, President, Kingston Ave., Brooklyn, N. Y.

For purifying the waste pipes, closets, sinks and all waste carrying arrangements, for sprinkling about the cellars, store rooms, etc., Platt's Chlorides has proven a most reliable and economical disinfectant. It is a colorless liquid, and when diluted and sprinkled about leaves no stain or smell, while it instantly removes any foul odors and destroys disease-breeding matter. A quart bottle will thoroughly disinfect a room, and an average family a month and can be obtained at all druggists.

**TORTURED BY ITCHING SCALP**

Eczema Broke Out Also on Hands and Limbs—Suffering Intense—Doctors Said Too Old to Be Cured—An Old Soldier of 80 Years Declares:

**"CUTICURA TREATMENT IS A BLESSING"**

"At all times and to all people I am willing to testify to the merits of Cuticura. It saved me from worse than the tortures of hell, about the year 1900, with itching on my scalp and temples, and afterwards it commenced to break out on my hands. Then I broke out on my limbs. I was advised to use salt and water, which I did, to no effect. I then went to a Surgeon, who commenced treating me with a wash of borax. The treatment did me no good, but rather aggravated the disease. I then told him I would go and see a physician in Erie. The reply was that I could go anywhere, but a case of eczema like mine could not be cured; that I was too old (80). I went to an eminent doctor in the city of Erie and treated with him for six months, with little result. I had read of the Cuticura Remedies, and I was strongly tempted to give them a trial, so I sent for the Cuticura Soap, Ointment, and Resolvent and continued taking the Resolvent until I had taken six bottles, stopping it to take the Pills. I was now getting better. I took two baths a day, and at night I let the water of the Soap dry on. I used the Ointment with great effect after washing in warm water, to stop the itching at once. I am now cured."

provided could be used as propagating quarters. It has been the hope, long cherished, of friends of Eastlake Park conservatory, that some public-spirited man would come to the front with a donation sufficient to enable the Park Commissioners to erect such a conservatory. The Eastlake gardens and conservatory are really of much importance to the city at large, from an aesthetic point of view, as from this place come the supplies for all the other parks of the city.

There is about five acres devoted to the propagating beds and houses, and in the course of a year nearly 100,000 plants are sent out. There are about thirty standard varieties which are propagated for ordinary park decorative work.

IDAHO-MARYLAND DEVELOPMENT CO.

GRASS VALLEY, NEVADA COUNTY, CALIFORNIA

At the present time this MINE is undergoing a system of improvements and repairs. The IDAHO-MARYLAND MINE is credited with a production to date of over SEVENTEEN MILLIONS of Dollars.

The main shaft has recently been timbered to the depth of 800 feet, and will soon reach the 1000-foot level.

At the 800 and 600-foot level thousands of tons of ore are in reserve. The ledge at this level is from 4 to 6 feet wide, and is being worked at the present time. This ore averages \$6.00 per ton.

At the 1000-foot level there is a considerable ore in sight, which will average \$10.00 per ton.

At the 1600-foot level there are thousands of tons of ore, some of which is of great value. At the 1700 and 1800-foot levels there are immense bodies of ore in sight, of paying value.

At the 1700-foot level the ledge averages in width 2 1/2 feet. At the bottom of the shaft the ledge averages in width 4 feet, showing free GOLD, freely distributed in the face of the quartz.

At the Canon shaft on the 1700-foot level there is some ore averaging \$20.00 per ton.

At the bottom of this Canon shaft a well defined ledge is shown 2 feet in thickness, that will average \$30.00 per ton.

The IDAHO-MARYLAND DEVELOPMENT CO. does not ask you to enter a new or untried field. You are invited to co-operate in an undertaking that has the dignity of a wonderful past record.

Its future promises even more brilliant achievement. To the conservative INVESTOR who demands verification of every claim made, we are ready to prove all statements.

The second issue of Treasury stock of the IDAHO-MARYLAND DEVELOPMENT CO. has been placed with us for sale, the proceeds to be used for general betterment of the property.

The price is 50 cents per share. Each share of stock sold is accompanied by a guarantee or rider. This provides for the return of the original investment with 10 per cent. interest from half the net earnings of the property before any dividends can be declared.

The company is capitalized at \$2,000,000, with 2,000,000 shares, par value of \$1.00 each, fully paid and non-assessable. 1,500,000 shares have been set aside as Treasury stock.
